

**NEW!**

# MINI PARTY FOGGER

This fog machine has exceptional output for its price and size. It puts out fog like machines costing twice as much. And at only 7" height and 4 lbs. weight, it's remarkably convenient to use.

It's simple too - just plug it in, wait for the ready light to come on, and press the button to make fog. Purchase the optional timer and you needn't do even that!

### Specifications:
