

# FLUID CONSUMPTION

These figures are provided for estimation purposes only. Your results may vary slightly.

## UNIQUE HAZER

PUMP SETTING	HOURS FROM 2 LITER BOTTLE	HOURS FROM 10 LITER BOTTLE	HOURS FROM 20 LITER BOTTLE
10	167	834	1667
20	83	416	833
30	48	238	476
40	33	166	333
50	21	104	208
60	13	65	133
70	8.3	41.5	83
80	5.5	27.5	55
90	3.3	16.5	33
99	2.1	10.5	21

Please note that haze from a Unique has a very long hang-time. (We ran the Unique in our stockroom for 1 minute at 50, and it took 5 minutes for the haze to completely dissipate.)

To make your own calculations: the Unique consumes 1 ml of fluid per minute for every setting of 10 on the pump (uses 2 ml/min with pump set on 20, 9 ml/min with pump set on 90, etc.)

## BATTERY POWERED FOGGERS

MACHINE	MINUTES FROM 250 MILLILITER BOTTLE	MINUTES FROM 2 LITER BOTTLE	MINUTES FROM 5 MILLILITER FLUID TUBE
Tiny FX	109	870	2
Tiny CX	109	870	N/A
Tiny S	500	4000	10
Power Tiny	25	200	N/A

## AC POWERED FOGGERS

MACHINE	MINUTES FROM 5 LITER BOTTLE	MINUTES FROM 20 LITER BOTTLE
Viper S - pump at 99	83	333
Viper NT - pump at 99	42	167
Viper 2.6 - pump at 99	21	83
Orka - pump at 99	10	50
Cobra 1.8 - pump at 99	28	114
Cobra 3.1 - pump at 99	20	78
Cryo-Fog - pump at 99	50	200

All Look Solutions fluids are manufactured in Germany using medical-grade ingredients. They are formulated specifically for the Look Solutions machines they're intended to be used in. Do not use other fluids in Look Solutions machines - you won't achieve the proper effect, you may damage the machine, you may put harmful byproducts into the air, and you'll void the machine's warranty.
