

**PYROWIZARD UFK MINI
FLASH POT**
Catalog No. MG32

Read these directions very carefully. This product uses flammable material and is for professional use only. The manufacturer is not responsible for any injury or liability that is the result of the user's failure to follow the specific instructions stated below.

Directions:

This unit should be flat-mounted on a hard surface away from all flammable materials. Install one IG03 Surefire Igniter through the sleeve so that the silver bridge wire end is inside of the pot. The pot can then be loaded with Flash Cotton (with optional Sparkle Additive), Flash Paper, or a combination of products. When being used only with Flash Paper, it is recommended to use a small piece of dry FP11 Flash Cotton on the tip of the igniter to act as a primer.

The Mini Flash Pot can also be used for smoke effects. Loading the pot with Slow Cotton and powder from our Smoke Cartridges (optional) will create a very nice sustained smoke effect.

Once loaded, attach the two Surefire Igniter wires to the Pyro Clips on the battery pack (MG35 UFK Ignition System recommended). Press the button switch. Your effect will be instantly created. Replace the Surefire Igniter and Flash Cotton primer before reloading.

Caution:

Always unplug the battery pack from the device before reloading.
Never fire at people, animals, or flammable objects.
Never look into the Pot when the device is loaded.
Always conduct a preliminary test in a safe location, so you'll know how much clearance space you need.

Tips:

Position the igniter tip so that it's touching the combustible material. Using a FP11 Flash Cotton primer is highly recommended for most situations. Simply place a small, fluffed-up piece of cotton over the tip of the igniter. This will give you a nice small burst of fire which will easily ignite your Paper. Flash Cotton is not mandatory; however, omitting it may result in miss-fires and/or delays when firing.

Warning:

Read these directions carefully and follow them exactly. Misuse is dangerous. The manufacturer is not responsible for any injury or liability that is the result of the user's failure to follow the specific instructions stated above. This product is manufactured without any warranties, express or implied. It is for professional use only. It is not sold to minors. For more information, consult the technical manual "Special Effects with Fire and Smoke" available from us or your dealer. DANGER! USE AT YOUR OWN RISK!
